WASTE SORTING

We provide you with two bags for waste sorting. One grey transparent bag for household waste and another yellow for recyclable waste, be careful we do not provide a bag for glass. For recyclable waste, a larger capacity trash can is available in the garage. For glass, a bin is also available.

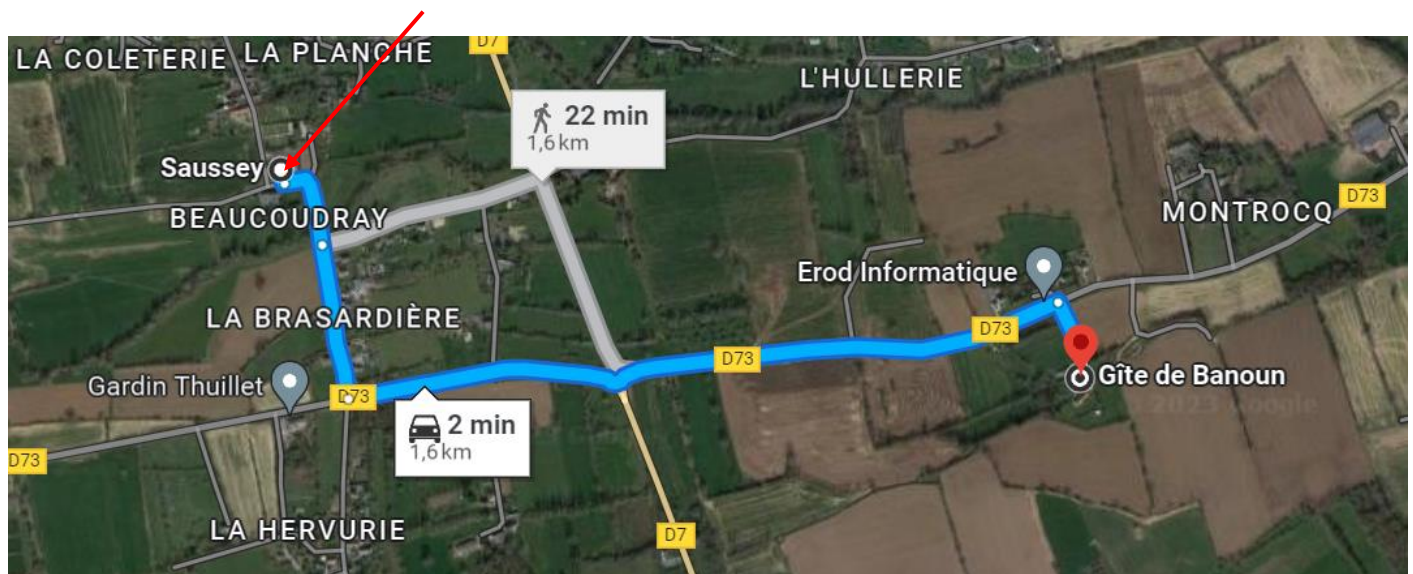

For your household waste (non-recyclable), we have organized ourselves as follows:

- We invite you to use the composter in the vegetable garden to dispose of your organic waste. The two ceramic pots with lids installed in the kitchen allow you to store your waste and, when full, to empty it into the composter (composting tips on page 8).
 - The rest of your organic and non-compostable waste will be integrated into the transparent trash bag installed in the kitchen bin. As the collection takes place in the middle of the week in Saussey, we will take care of its evacuation at the end of your stay.
- ➔ 30% less waste in your household waste bin.
 - ➔ Reduction of CO2 emissions from waste collection and incineration or storage.
 - ➔ On-site recovery of garden waste.
 - ➔ Generation of quality compost for plantations and the vegetable garden.

Regarding previously sorted recyclable waste (transparent yellow bag for various paper, cardboard and plastic packaging see instructions on next page - bin at your disposal for glass) collection is done as a voluntary contribution to Saussey by you.

Packages must be emptied and not overlaid. They do not need to be cleaned.

To deposit recyclable waste, it's here:

The nearest garbage disposal facilities are located at :

Use of equipment

We remind you to be extremely careful with children.

The cottage works with a wood stove, its operation is simple, a wooden basket (+ depending on the season !) will be at your disposal.

Appliances are easy to use, but if you need us, we'll listen to you.

The hot water comes from a balloon located in the water room of the ground floor. Be economical for the planet and also if you are used to continuous heating.

The barbecue must be kept away from walls and cloisters when used, alcohol-free and children kept away.

The cottage is equipped with WIFI : Banoun (2,4 Hz) or Banoun5 (5 Hz) password : Boutcamp

Please make sure to store umbrellas, sunbeds and barbecue in the garage in case of rain.

Rules of life

For the smooth running of your stay, and that of the people who will succeed you, we thank you in advance **not to smoke** inside and to respect the few points below.

For their safety, **never let your young children wander unattended.**

For reasons of hygiene, pets are not allowed.

It is imperative never to throw towels and sanitary pads in the toilet, the pipes are absolutely not intended for this purpose, please use the trash can.

In all cases, the immediate surroundings are put in order, do not leave cigarette butts, various papers... We are aware that it is not pleasant to be told what seems obvious in the proper maintenance of a living place, unfortunately, from experience, we know that it is sometimes useful to remind you.

Please close the windows and doors when you are away from the cottage.

Please make sure that the neighbor's cat does not enter the house and, if it does, to let it out.

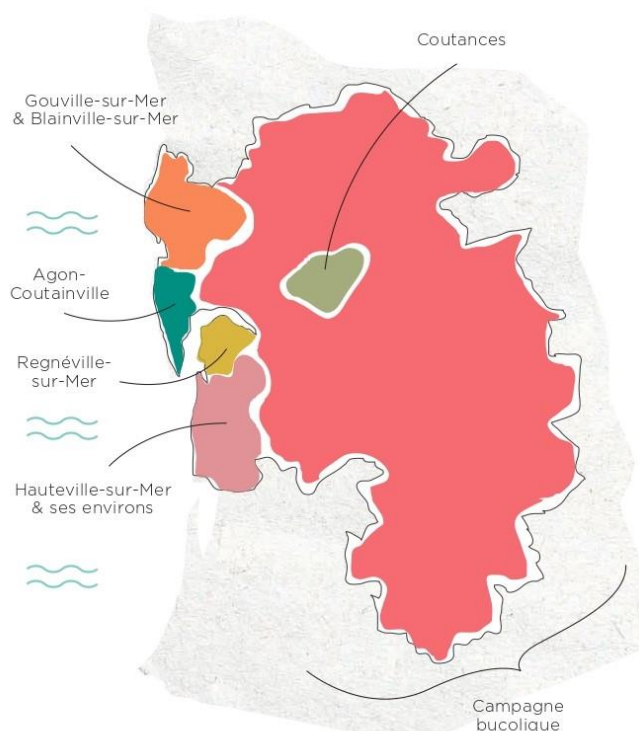

During your stay, in order to respect the peace of all and the calm of the environment, we remind you that this gite is not intended for the organization of parties.

Please let us know, at the end of your stay or during your stay, any comments or suggestions regarding your stay and our prospects for improvement.

So, what have you decided ?

- stay here and rest, read, meditate, walk in the garden or the village, sunbathe ...
- go hiking, the region is rich in itineraries (see page 20)
- use this gite as a base camp to other destinations. Let us remember that we are in the center of Department of Manche, 10 km from the first beach (Montmartin/Mer), 67 km from Mont Saint-Michel and 100 km from La Hague.
For all these walks to discover the authentic Manche Department, you will surely be equipped with guides, brochures or just a smartphone.
Nevertheless, we plan to provide you with regularly updated documentation to find out what may be happening around you. Our website (Boutcamp.fr) offers suggestions of places to visit. Do not hesitate to consult it.
Documentation provided by the Tourist Office of Coutances are also at your disposal in the gite.

Or essentials :

- **The sites to visit that we particularly like** (we leave most to go as far as possible) :

For the sake of it, the Saussey Manor, this one, you can go there on foot. You will discover its collections open to the public.

Coutances and especially its Jazz Festival under the apple trees : Jazz sous les pommiers, its Cathedral and its Public Garden. In summer, visits to the upper parts of the cathedral are organised and the Public Garden hosts every Wednesday afternoon a show for children and a little later a concert by local musicians.

The dune massif of Annoville. The Chauffer dans la Noirceur festival in Montmartin/Mer.
